TRI VANANDA · THE PROJECT

A sanctuary for wellbeing & nature *at the heart of the island.*

A multigenerational well-living community in Central Phuket, anchored by its own **Residential Villas**. The community is created in collaboration with two distinguished wellness partners: **Clinique La Prairie** — Switzerland's pinnacle of longevity, making its Southeast Asian debut — and **Trisara**, Phuket's most luxurious private pool villa beach resort.

Farm-front dining, retail and community spaces — the estate's public realm, opening 2027.

Residential villas, *built for multigenerational living.*

Purposefully built homes set among the estate's lakes and forest. Residents choose their location, then their layout — seven designs across two collections, from two to four bedrooms, fully furnished. Prices from 66 MB – 144 MB (USD 2.1 – 4.6 million).

New wellness brand *under development.*

Across the Montara family of properties, wellness will take three distinct forms — prescribed at Clinique La Prairie, lived at Tri Vananda, and celebrated at Trisara. On their own, each would be told as a separate story. A new wellness brand will bring them together, so the whole reads not as parts, but as a single, coherent way of living.

THREE EXPRESSIONS OF WELLNESS ACROSS THE ESTATE

LONGEVITY PRESCRIBED Health Resort <i>by Clinique La Prairie</i> Clinical longevity and preventive medicine — credentialed by Switzerland's most established medical-wellness brand.	LONG LIFE LIVED New Development <i>at Tri Vananda</i> Wellbeing as a daily practice — the new facilities and residential community at the heart of the estate.	LIFE CELEBRATED Renovated <i>Trisara Wellness</i> Wellbeing at the beachfront — twenty years of luxury hospitality, renewed under the new brand.
---	---	---

Stronger together than apart: longevity **prescribed**, a long life **lived**, and life **celebrated** — one continuous arc, from the clinic to the everyday to the shoreline. A single wellness brand will carry that arc across every property, turning a collection of places into one ecosystem — a story each new venue can join, and one no single property could tell alone.
