

TRI VANANDA

MARKETING MEETING · STRATEGY BRIEFING

The U.S. PR Partner

Choosing a communications partner to sell the villas and carry the PATAMA ecosystem story.

PREPARED 29 MAY 2026

SCOPE 9 AGENCIES REVIEWED

STATUS INTERNAL · SELECTION

Reach top-tier media and turn audiences into sales.

Tri Vananda needs a U.S.-anchored partner that can do *two things at once* — and few agencies truly can.

- Reach high-net-worth American buyers through the **trusted earned media** they read — and convert a wellness community into **residence sales**.
- There are two kinds of agency: those built for **travel and hospitality**, who win coverage and bookings — and those built for **real estate**, who sell units. The right partner does both.

HOW TO READ THE PROFILES

Nine agencies, profiled.

Each agency that follows is read against the two priorities that matter most — U.S. media reach and the ability to turn a wellness community into residence sales — with a real case study to judge its direction. The read is qualitative, meant to frame conversations rather than rank.

THE CONVERSATION STARTER

Six questions for each agency.

- 1 Show two branded-residence or wellness campaigns where PR tied to actual reservations or sales — and the KPIs you set.
- 2 Which senior people run our account day-to-day, and what is their HNWI real-estate track record?
- 3 Lead with top U.S. media — NYT, WSJ, FT, Robb Report, AD. How does that coverage cascade into Southeast Asian and regional press that picks up the U.S. story?
- 4 How would you tell the PATAMA ecosystem and net-zero story without overstating unannounced plans?
- 5 How do you measure success beyond impressions — qualified leads, gallery visits, reservations, sell-through?
- 6 What is your influencer and experiential approach for reaching HNWI buyers discreetly?
