

TRI VANANDA x PATAMA Residential Living Meets Wellness Services Service Concept

Presented by Oriental Health Biz Team
9 June 2026

TRI VANANDA

INTRODUCING THE NEW WELLNESS BRAND

PATAMA

Threading all the good things in life together.

TRI VANANDA x PATAMA

Residential Living meets Wellness Services

TRI VANANDA

Residential Development

A private residential community and long-stay living destination.

PATAMA

Wellness Service Brand

An integrated wellness brand delivering clinical, lifestyle, recovery, and preventive health services.

Home buyers at Tri Vananda gain access to PATAMA wellness services.

Customer Journey / User Types

1. Guest

Short-stay visitor using selected wellness services.

2. Member

Registered wellness user with access to PATAMA services and benefits.

3. Resident

Home buyer / villa owner living in Tri Vananda with embedded wellness access.

Who buys the home?

The home buyer becomes a Resident of Tri Vananda and gains access to PATAMA as a Member, while guests may also use selected services.

ONE VISION. SIX TRENDS. ONE ANSWER.

The Future of Family Longevity Living in Phuket

The six trends
are mutually reinforcing.

A family that wants long-term residence (T5) also wants multigenerational wellness design (T3), clinical longevity tools (T1), AI continuity (T6), Thai cultural roots (T4), and a Blue Zone community (T2).

TVND IS THE ONLY
PRODUCT IN PHUKET
THAT ADDRESSES
ALL SIX
SIMULTANEOUSLY.

People, Environment, Culture, and Healing Relationships

Tri Vananda has always worked through people, environment, culture, and healing relationships. This is not a philosophy statement — it is a design principle.

Every space, every program, every encounter is architected to create the conditions where real change becomes **natural**, **sustained**, and **shared**.

PEOPLE

We believe true transformation happens through connection.

From families to individuals, our community thrives on empathy, trust, and shared purpose across every generation.

ENVIRONMENT

Nature is not a backdrop — it is a teacher, a healer, and a daily companion.

Our biophilic design, clean air, water, and green spaces create the conditions for well-being to flourish.

CULTURE

Culture shapes behavior more powerfully than intention.

Through rituals, rhythms, food, movement, and Thai wisdom, we cultivate a way of life that is meaningful and sustainable.

HEALING RELATIONSHIPS

Healing happens in relationship. Our approach is human-first, heart-led, and grounded in genuine care — where every interaction supports your journey to become your best self.

TRI VANANDA

CORE VALUES

THE PRINCIPLES THAT GUIDE EVERY DECISION

HUMAN FIRST, ALWAYS

Clinical tools exist to serve people. Technology serves the healer. Every assessment, every protocol, every program begins and ends with the human being -- not the data, not the equipment, and not the procedure.

CLINICAL DEPTH CREATES TRUST

We earn the right to speak about health by investing in the tools, training, and governance that make our clinical statements credible. CT, MRI, FibroScan, DEXA, AI Digital Twin -- these are not features. They are the foundation of trust.

THAI WISDOM IS NOT DECORATION

Our Thai identity is clinical, not cosmetic. TTM Dhatu 4 constitution mapping, herbal formulas, seasonal rituals, and Southern Thai healing knowledge are used as precision tools -- not background ambiance.

COMMUNITY IS THE INTERVENTION

Belonging is one of the most powerful longevity factors known to science. We design community deliberately -- shared meals, rituals, member circles, and intergenerational bonds are as therapeutic as any clinical protocol.

MEASURABLE CHANGE, NOT WELLNESS PROMISES

Every guest who leaves Tri Vananda leaves with a number: a biomarker that moved, a risk score that changed, a cognitive score that improved. We are accountable to outcomes, not experiences.

MULTIGENERATIONAL BY DESIGN

We never serve the individual in isolation. We serve the family -- children, adults, grandparents -- as a connected system. Programs that strengthen one generation strengthen all of them.

5 CORE DIFFERENTIATORS

THAT MAKE TRIVANANDA UNIQUE IN THE WORLD

TRI VANANDA

SCIENCE • NATURE • WISDOM
HUMAN LONGEVITY

NOT JUST LONGER LIFE,
BETTER LIFE.
TOGETHER.

01 6M CLINICAL ARCHITECTURE

The only program in Southeast Asia covering all six longevity risk domains in one integrated protocol.

ONE INTEGRATED PROTOCOL

02 THAI TRADITIONAL MEDICINE AS CLINICAL TOOL

Not spa. Not decoration.
TTM's Dhatu 4 constitution framework is used to personalize every protocol – herbal formulas, food plans, recovery programs – creating a genuinely Thai clinical identity unavailable anywhere else.

DHATU 4 CONSTITUTION The Foundation of Personalization

03 AI DIGITAL TWIN – PREDICTIVE, NOT REACTIVE

5-year risk trajectory modeling across all 6 modules. Every return visit is smarter than the last. Clinical memory is preserved, protocols evolve, and families feel seen – not re-processed.

04 MULTIGENERATIONAL COMMUNITY DESIGN

Designed for every generation: children's brain + movement programs, adult clinical protocols, grandparent longevity and legacy. No competitor has this complete design.

CHILDREN

- Brain Development
- Movement & Play
- Nutrition & Immunity
- Emotional Wellness

ADULTS

- Clinical Longevity
- Performance
- Stress Optimization
- Recovery & Resilience

GRANDPARENTS

- Healthy Longevity
- Functional Independence
- Cognitive Health
- Legacy & Purpose

FAMILY TOGETHER

- Shared Experiences
- Healthy Lifestyle
- Stronger Connections
- Lifelong Impact

05 MAJOR MEDICAL ASSET INVESTMENT

CT, MRI, FibroScan, DEXA, carotid ultrasound, coronary calcium scoring – the precision tools that make TVND's clinical statements credible, not aspirational.

CT SCAN

MRI

FIBROSCAN

DEXA BODY COMPOSITION

CAROTID ULTRASOUND

CORONARY CALCIUM SCORING

PRECISION DIAGNOSTICS. PRECISE OUTCOMES.

TRI VANANDA

Family Longevity Orientation

การออกแบบ **Wellness Identity** ของครอบครัว

“How this family wants to live for the next 30 years”

Onboarding service for families joining as residents or members.
Not just individual health assessments — an invitation for the whole family to design their shared family wellness identity: how they want to eat, move, sleep, raise children, support elders, and live together with intention.

Services & Activities

Family wellness identity workshop

Sleep, food, movement & digital routine mapping

Elder support needs assessment

Family Wellness Map creation

Multigenerational health conversation

Family risk pattern review

Children's wellness rhythm design

90-day Family Living Plan

LIVE WELL TOGETHER. FOR TODAY AND FOR THE NEXT 30 YEARS.

TRI VANANDA

Concierge Medicine for Multigenerational Families

Physician-led, relationship-based care designed for whole-family continuity, ensuring every generation thrives—together.

Personalized today. Protected tomorrow. For every generation.

TRI VANANDA

Food Culture Program

โปรแกรมวัฒนธรรมอาหาร: อาหารเป็นความทรงจำ ยา และวัฒนธรรม

“Food as family memory, medicine, and culture”

Using the Food Lab, Farm, and Family Dining as the heart of this program.

The deepest culture of any family is food.

This service transforms nutrition from a dietary intervention into a living family tradition — passed between generations, rooted in Thai wisdom, and informed by each family’s metabolic profile.

Services & Activities

Family metabolic cooking class

Grandmother recipe upgrade workshop

Thai medicinal food masterclass

Child-friendly longevity food cooking

Anti-inflammatory family menu design

CGM-guided family meal learning

Farm-to-villa basket with recipe cards

Family dinner designed by health goal

Context / Notes

วัฒนธรรมที่ลึกที่สุดของครอบครัว คือ อาหาร
The deepest culture of a family is food.

จากอาหารเพื่อสุขภาพ สู่ วัฒนธรรมอาหารของครอบครัว
ที่ส่งต่อกันข้ามรุ่น
From diet to family food culture passed across generations.

Outcome

Diet becomes family food culture —
meaningful, medicinal, and multigenerational.

LIVE WELL TOGETHER. FOR TODAY AND FOR THE NEXT 30 YEARS.

TRI VANANDA

Movement Culture & Recreation Rx

“Movement as joy, not punishment”

Making movement a family culture and daily joy — not a gym obligation or medical exercise. This service designs movement as a social activity, a play experience, and a lifelong habit that connects family members across generations while building genuine physical health.

SERVICES & ACTIVITIES

- ▶ Family power walk in nature
- ▶ Water-based recovery and play
- ▶ Lake cycling together
- ▶ Forest mobility class
- ▶ Parent-child movement games
- ▶ Senior balance and stability class
- ▶ Thai dance for brain and body
- ▶ Teen strength foundation program
- ▶ Tennis and pickleball social club
- ▶ Executive Zone 2 endurance club

 Thai dance for brain and body.

 Senior balance and stability class.

 Teen strength foundation program.

 Tennis and pickleball social club.

หมายเหตุ / Context

- movement เป็นวัฒนธรรมครอบครัว ไม่ใช่แค่ gym
- การเคลื่อนไหวกลายเป็น lifestyle และ social bonding

Outcome:

Movement becomes lifestyle and social bonding — natural, joyful, and intergenerational.

LIVE WELL TOGETHER. FOR TODAY AND FOR THE NEXT 30 YEARS.

Multi-Generation Health Rituals

“Weekly rituals that make wellness become family culture”

1 Sunday family walk

2 Grandparent-child garden breakfast

3 Farm-to-table family dinner

4 Evening device-free hour

5 Family breathing circle

6 Intergenerational storytelling night

7 Thai herbal foot bath before sleep

8 Nature journaling with children

PATAMA

I. LIVE — Living Well Begin Together

II. THRIVE — Living Well Awakening Together

III. TRANSFORM — Living Well Generation after Generation

I · LIVE — Health as Infrastructure

Health is not something you have to buy every day — it is the environment you live in.

แนวคิดหลัก: สุขภาพไม่ใช่สิ่งที่ต้อง 'ซื้อ' ทุกวัน — มันเป็นสภาพแวดล้อมที่คุณอาศัยอยู่
LIVE ไม่ต้องการนัดหมาย ไม่ต้องการ staff ไม่ต้องการการตัดสินใจ คุณแค่ตื่นมา แล้ว facility พร้อมอยู่

Residential Membership Logic

นี่คือสิ่งที่ทำให้ Tri Vananda ต่างจาก 'บ้านที่มีสปา' เพราะสุขภาพถูก built-in เข้าไปในราคาบ้านตั้งแต่แรก

Everyday LIVE Experience

1 Forest trail morning run

2 Morning meditation group in a pavilion

3 Lap pool swimming

4 Walking in the herb garden / harvesting vegetables at the farm

5 Infrared sauna + cold plunge recovery

6 Evening breathwork deck before sleep

ตัวอย่างรายวันของ LIVE

เวลา	กิจกรรม	Site
06.00	วิ่งเส้นทาง forest trail	Site 04 Forest
07.00	กลุ่ม morning meditation (daily, ไม่ต้องจอง)	Site 05 Meditation
08.00	ว่ายน้ำ lap pool	Site 07 Sport Complex
10.00	เดินสวนสมุนไพร เก็บผักเช้า	Site 03 Farm
16.00	ใช้ infrared sauna + cold plunge	Site 07 Recovery
19.00	ใช้ breathwork deck ก่อนนอน	Site 05 Meditation

ทั้งหมดนี้ไม่มีค่าใช้จ่ายเพิ่มเติม เป็นส่วนหนึ่งของการ 'อยู่' ใน Tri Vananda

II · THRIVE — When You're Ready to Go Deeper

LIVE creates habit — THRIVE creates measurable outcomes.

THRIVE เกิดขึ้นเมื่อ guest ต้องการมากกว่า facility access
อยากได้ผู้เชี่ยวชาญ อยากวัดผล อยากมีโปรโตคอลเฉพาะตัว จ่ายต่อ session, ต่อ test, ต่อ treatment

1 Clinic — Service + Member

- LIVE member feels low energy
- ↓
- Walk-in Clinic
- ↓
- Single Module M3 (Burnout) — ฿15,000
- ↓
- Results in 72 hours
- ↓
- Physician protocol prescribed
- ↓
- NAD+ IV session — ฿8,500 / session

Member rate -25% → pay ฿6,375

Deducted from ฿3,000,000 service credit

2 TTM & Spa — Service + Member

- Nuad Boran (90 min) — ฿3,800
- ↓
- Constitution reading before treatment
- ↓
- Tok Sen add-on — ฿4,200
- ↓
- Herbal steam — ฿1,800

Total per visit — ฿9,800

Member resident -30% → pay ฿6,860

Deducted from service credit

3 Sport Hub — Service + Member

- Personal training 1:1 — ฿3,500 / session
- ↓
- Movement screen first
- ↓
- Coach builds programme
- ↓
- Returns 3 times / week
- ↓
- Recovery suite — ฿4,500 / session

Monthly sport membership — ฿15,000

Better value than day rate

4 Farm — Member Primarily

- CGM setup — ฿8,500
- ↓
- 30-day real-time glucose tracking
- ↓
- Personalised meal plan — ฿5,500 / month
- ↓
- Farm-to-villa weekly basket — ฿2,500 / week

Food becomes prescription

THRIVE is where access turns into action — expert-led, measurable, personalised, and credit-enabled.

จากการ 'อยู่' สู่การ 'ดูแลเชิงลึก' อย่างเป็นระบบ

III · TRANSFORM — Commitment to Measurable Change

THRIVE gives session-based services — TRANSFORM delivers clearly defined outcomes.

แนวคิดหลัก: THRIVE ให้บริการทีละ session — TRANSFORM ให้ผลลัพธ์ที่ defined ชัดเจน
TRANSFORM is for guests ready to invest in real change. It bundles multiple services into one protocol with a timeline, a clear goal, and before-after measurement.

1 Clinical Packages — 6M Modules

- Guest with metabolic risk
- 6M Full Baseline — ฿45,000
- Includes M1 to M6 complete
- Physician analysis + 90-day protocol
- AI Digital Twin setup — ฿8,000
- Track 5-year trajectory
- Annual Recalibration next year — ฿22,000
- Measures whether health truly improves over time

Defined protocol + measurable longitudinal tracking

2 Sport Hub Packages

- Male, age 55, declining muscle mass
- M5 Sarcopenia Reversal — 8 weeks — ฿45,000
- DEXA scan before
- PT designs programme
- Train 3 times / week
- DEXA scan after
- Lean mass increases measurably

Measurable outcome justifies premium pricing

3 TTM & Spa Packages

- CEO with burnout
- 3-Day TTM Immersion — ฿35,000
- Day 1: Constitution mapping + 2 sessions
- Day 2: Tok Sen + herbal formula Rx
- Day 3: Full ritual + home protocol
- Continue with monthly herbal subscription — ฿3,500 / month
- THRIVE continues after the package

Immersion package + continuity through subscription

TRANSFORM is where commitment becomes measurable change — protocol-based, goal-driven, outcome-tracked.

จากการดูแลเป็นครั้ง ๆ สู่การเปลี่ยนแปลงที่วัดผลได้จริง

Residential Programmes A–E

These are the highest-level TRANSFORM offerings — cross-pillar bundles designed for long-stay residents.

➔ เหล่านี้คือ TRANSFORM ระดับสูงสุด — bundle ข้ามหลาย Pillar ออกแบบสำหรับ resident ที่อยู่ระยะยาว ➔

A Programme A

Family Health Partnership

Anchor retainer for the whole family

Integrated clinical care, TTM, sport, and family wellness planning in one coordinated programme.

-  Clinical + TTM + Sport
-  Family physician review
-  Long-term relationship

B Programme B

Multigenerational Longevity Residency

7 / 14 / 30-day immersive stay

Designed for all generations to participate together through assessment, movement, nutrition, mindfulness, recovery, and family rituals.

-  7 / 14 / 30 Days
-  All generations together
-  Shared healing experience

C Programme C

CLP Blueprint

Continuity care for long-stay residents

For residents who want a clinician-led relationship with regular review, protocol adjustment, tracking, and coordinated follow-up.

-  Clinician oversight
-  Longitudinal tracking
-  Coordinated care

D Programme D

Next-Gen Health & Legacy

For children and teens

Cognitive development, movement, identity, mentoring, and resilience for the next generation.

-  Cognitive + movement
-  Identity & mentoring
-  Youth development

E Programme E

PATAMA Clinical Day Programme

For non-resident day guests

A full clinical day experience with doctor consultation, diagnostics, protocol design, and recovery services in one curated journey.

-  Full clinical experience
-  Day guest access
-  Assessment to protocol

Cross-pillar, protocol-based, resident-centred — PATAMA Residential Programmes turn wellness access into long-term transformation.

จากการเข้าถึงบริการสู่การเปลี่ยนแปลงระยะยาวแบบมีทีมดูแลครบวงจร

TRI VANANDA

The Next Generation Culture Services

The living expression of the 8 Pillars

The Next Generation Culture Services are not standalone programs — they are the living expression of the 8 Pillars. Each pillar generates revenue through services. But what makes guests return, what makes residents stay, and what creates the community that sets Tri Vananda apart — is the culture layer that connects all eight pillars into a shared way of living.

Pillar		Primary Culture Service		How It Connects
	1 Longevity Clinic & Primary Care		Family Longevity Orientation	The clinic becomes meaningful when guests understand their whole-family health map, not just individual results.
	2 TTM & Herbal Healing		Thai Wisdom & TTM Living Culture	TTM becomes a daily practice: constitution mapping, herbal food, bedtime rituals, and seasonal wellness — not just treatment.
	3 Brain & Mind Meditation Pavilion		Brain, Mind & Emotional Resilience Studio	The studio becomes a family safe space for breathwork, burnout recovery, teen stress, and couple reconnection.
	4 Food as Prescription, Farm & F&B		Food Culture Program + Farm-to-Family	Food Lab services connect to family cooking classes, farm harvest, grandmother recipes, and CGM-guided meals.
	5 Sport & Recovery		Movement Culture & Recreation Rx	Movement becomes family culture: lake cycling, forest walks, parent-child games, Thai dance, and senior balance class.
	6 Farm & Nature Forest		Forest-to-Family Healing Program	The forest becomes a living classroom: children grow food, families harvest together, herbal gardens, and seasonal eating.
	7 Family & Children / 12 Senses / Family Mentor		Multi-Generation Rituals + Digital Balance	Weekly rituals, intergenerational activities, storytelling nights, and teen digital balance programs build the culture of family life.
	8 Branded Products		Products that Extend the Culture Home	Products extend the Tri Vananda culture into the home — herbal kits, seasonal bundles, and member welcome gifts.

Culture is the connective layer that turns eight pillars into one way of living.

→ Return is driven by belonging. Retention is driven by culture.

PATAMA EXPERIENCE & REVENUE PLATFORM

Eight integrated pillars of wellness, hospitality, and recurring revenue

P1 Longevity Clinic

Services: 6M Assessment, Lab, Imaging, IV Therapy, AI Digital Twin, Physiotherapy

Business note: Clinical anchor — every guest starts here; upsell to IV pack, AI Twin, and specialist referral

P2 TTM Spa & Herbal Healing

Services: Constitution mapping, therapeutic massage, herbal formula, TTM programmes

Business note: High-frequency recurring — the service guests return to most often; highest repeat purchase rate

P3 Brain & Mind Studio

Services: Neurofeedback, cognitive assessment, burnout recovery, children's brain health

Business note: Premium intensive — highest revenue per guest day; subscription model for long-stay

P4 Food as Prescription

Services: CGM monitoring, personalised meal plan, cooking class, farm dining, daily café

Business note: Daily F&B + workshop + retail — high frequency; links M1/M2/M5 with gut-brain axis

P5 Sport & Recovery Hub

Services: Gym access, personal training, group class, recovery suite, membership

Business note: Day pass + monthly membership + programme — recovery suite margin is high

P6 Farm & Nature

Services: Farm tour, harvest experience, nature camp, herb workshop, produce basket

Business note: Low cost, high experience — strong community and cultural value; high family engagement

P7 Family & Children

Services: Family longevity blueprint, children's camp, elder programme, multigenerational design

Business note: Highest LTV segment — families stay longer, return more, refer most; not launched in Year 1

P8 Branded Products

Services: Herbal supplement, skincare, tea, welcome box, e-commerce subscription

Business note: Low variable cost, high margin, globally scalable — 5% Year 1 to 15% Year 5 of total revenue

TRI VANANDA

Primary Care Clinic

The clinical anchor of the residential wellness ecosystem

Tri Vananda's Primary Care Clinic is not designed as a conventional walk-in clinic. It is the clinical anchor of the residential wellness ecosystem — providing family doctor care, preventive health planning, chronic disease monitoring, villa-based support, and seamless coordination with specialists when needed.

The goal is simple: every family has a doctor who knows them, follows them, and helps them live better over time.

Named family physician

Care navigator

Whole-family health record

Preventive screening plan

Villa-based medical support

Chronic disease follow-up

Specialist referral coordination

Emergency escalation pathway

AI Digital Twin continuity

Annual family health review

Proactive. Personal. Integrated. Continuity of care, wherever life happens.

TRI VANANDA

TRI VANANDA

Longevity Clinic 6 Modules

Tri Vananda AI Digital Twin Program

Six Clinical Risk Assessment Modules for Personalized Longevity Care

M1

Metabolic & Glucose Risk

Assesses glucose and metabolic risk: insulin resistance, prediabetes, and type 2 diabetes.

M2

Liver Metabolic Risk

Assesses fatty liver risk: NAFLD, NASH, and metabolic liver disease.

M3

Stress, Recovery & Burnout

Assesses stress and burnout risk: autonomic dysregulation, cortisol imbalance, HRV, and sleep debt.

M4

Brain & Cognitive Risk

Assesses brain health risk: mild cognitive impairment, cognitive decline, and dementia risk.

M5

Muscle & Functional Age

Assesses muscle age and function: sarcopenia, grip strength, gait speed, and functional age.

M6

Cardiometabolic & Vascular Risk

Assesses heart and vascular risk: cardiovascular disease, hypertension, and dyslipidaemia.

Integrated risk mapping for precision prevention, recovery, and longevity planning.

Competitor Landscape Analysis

TRI VANANDA

Why the 6M Modules Matter

The Clinical Logic Behind
Tri Vananda AI Digital Twin Program

The **6M Modules** are important because they represent the six major risk domains that determine whether a person will live longer, function better, and age with quality.

Modern longevity is not only about detecting disease. It is about identifying early risk patterns before disease becomes visible. Many clients may still look healthy, but their biology may already show early signals of insulin resistance, fatty liver, chronic stress, vascular aging, cognitive decline, muscle loss, or poor recovery.

Your Longevity Intelligence Overview

Biological Age
vs. Chronological Age

Your biology is younger
than your actual age.

PATAMA WELLNESS UHNW 6M Clinical Risk Mapping Journey

A personalized health map — not a sequence of isolated tests.

M1

Metabolic & Glucose Risk

- DEXA / body composition
- CGM placement
- fasting glucose, HbA1c, insulin, HOMA-IR
- nutrition rhythm review

M2

Liver Metabolic Risk

- liver panel
- ultrasound / FibroScan
- visceral fat correlation
- alcohol / sleep apnea risk

M3

Stress, Recovery & Burnout

- HRV
- sleep questionnaire
- burnout / stress screening
- cortisol rhythm if indicated
- recovery capacity

M4

Brain & Cognitive Risk

- cognitive screening
- executive function
- sleep-brain link
- mood / depression screening
- optional advanced biomarker

M5

Muscle & Functional Age

- DEXA lean mass
- grip strength
- gait speed
- balance
- functional age

M6

Cardiometabolic & Vascular Risk

- BP
- ECG / EKG
- lipid, ApoB, Lp(a), hs-CRP
- arterial stiffness
- coronary calcium / carotid ultrasound as indicated

Systematically reading biology. Seamlessly guiding longevity.

MULTIGENERATIONAL

Known before arrival. Guided during the visit. Protected after departure.

Western Model vs. Tri Vananda Model

From symptom management to root-cause, multi-pillar longevity intervention

Competitor (Western model)

VS.

Tri Vananda (TVND model)

TRI VANANDA PHUKET

CLP × TVND — Integrated Longevity Ecosystem

TRI VANANDA

M1: Metabolic & Glucose Risk

Metabolic health is the foundation of longevity.

Insulin resistance, prediabetes, high visceral fat, abnormal triglycerides, late eating patterns, sedentary behavior, and poor glucose control are often the earliest signs that the body is moving toward chronic disease.

Many clients do not feel sick at this stage. However, this is exactly the window where prevention works best.

What this module identifies

- Insulin resistance
- Prediabetes risk
- Type 2 diabetes risk
- Visceral obesity
- Glucose variability
- Poor meal timing
- Sedentary lifestyle pattern

Key tools

- Metabolic Syndrome Criteria
- Diabetes Risk Score
- CGM Glucose Pattern Review
- Nutrition Pattern Assessment
- Physical Activity Assessment
- Waist-to-Height Ratio
- HOMA-IR Interpretation

CGM GLUCOSE OVERVIEW ①

METABOLIC RISK MAP

METABOLIC SUMMARY

This module allows the team to move from normal lab result to early metabolic risk mapping.

M2: Liver Metabolic Risk

The liver is the metabolic command center of the body.

Fatty liver is no longer only a liver problem. It is a sign of deeper metabolic dysfunction involving insulin resistance, visceral fat, inflammation, poor sleep, alcohol burden, and cardiometabolic risk.

Many clients with fatty liver have no symptoms. Without proper assessment, liver fat can quietly progress to fibrosis, NASH, or more advanced liver disease.

THE LIVER METABOLIC RISK ASSESSMENT HELPS IDENTIFY:

- | | | | |
|--|---------------------|---|--------------------------------|
|  | Fatty liver risk |  | Alcohol-related liver burden |
|  | NAFLD / MASLD |  | Sleep apnea as a hidden driver |

VISCERAL FAT SCORE

12

High

Target < 10

This module connects liver health with metabolic health, nutrition, sleep, and lifestyle behavior.

Early detection. Integrated assessment. Personalized action. Better liver. Better life.

TRI VANANDA

M3: Stress, Recovery & Burnout

WHY IT MATTERS

Longevity is not only about blood tests. It is also about the nervous system.

Many high-performing clients are not sick in the traditional sense, but they are physiologically depleted. They may have poor sleep, low HRV, chronic stress, digital fatigue, mood fluctuation, and reduced recovery capacity. Burnout is often the missing link between lifestyle, hormones, sleep, metabolic risk, and cognitive performance.

The Stress, Recovery & Burnout Assessment helps identify:

- chronic stress burden
- autonomic nervous system dysregulation
- poor recovery
- sleep debt
- emotional exhaustion
- digital fatigue
- depression or anxiety red flags
- workload-related health risk

Key tools

- Burnout Screening Questionnaire
- Perceived Stress Scale
- Sleep Quality Questionnaire
- HRV Recovery Score
- Workload & Lifestyle Mapping
- Mood & Energy Score
- Depression / Anxiety Screening
- Digital Fatigue Assessment

STRESS & RECOVERY DASHBOARD

This module makes Tri Vananda different because it recognizes that stress is not just an emotion — it is a biological driver of aging and disease.

TRI VANANDA

M4: Brain & Cognitive Risk

Why it matters

Brain health is one of the strongest reasons why affluent families invest in longevity.

Cognitive decline does not begin suddenly. It often starts years earlier through poor sleep, vascular risk, chronic stress, inflammation, depression, hearing loss, low cognitive reserve, or metabolic dysfunction.

The Brain & Cognitive Risk Assessment helps identify:

- early cognitive decline
- mild cognitive impairment risk
- attention and executive function issues
- brain fog
- memory risk
- sleep-related cognitive problems
- vascular brain risk
- modifiable dementia risk factors

Key tools include

- MoCA / Cognitive Screening
- Digital Cognitive Test
- Executive Function Assessment
- Brain Health Risk Questionnaire
- Hearing / Vision Screening
- Depression Screening
- Sleep Apnea Risk Assessment
- Cognitive Reserve Assessment

This module helps position Tri Vananda beyond wellness lifestyle, into cognitive longevity and family brain health.

BRAIN & COGNITIVE RISK DASHBOARD

DOMAIN SUMMARY

COGNITIVE RISK FACTORS

NEXT STEPS

- Review results with your clinician
- Personalized plan and risk reduction strategy
- Reassess and track progress

Tri Vananda integrates advanced assessment, precision insights, and proactive care for lifelong brain health.

TRI VANANDA

TRI VANANDA

M5: Muscle & Functional Age

Why it matters

Muscle is one of the most practical biomarkers of aging.

A person may have normal weight but low muscle. They may look slim but have poor grip strength, poor balance, slow gait speed, and high fall risk. This is especially important for older adults, but also relevant for adults from midlife onward.

Sarcopenia is not only about muscle loss. It affects metabolism, independence, fall risk, glucose control, mobility, and quality of life.

The Muscle & Functional Age Assessment helps identify:

- sarcopenia risk
- low muscle strength
- poor functional mobility
- fall risk
- poor balance
- low protein intake
- movement limitation
- biological functional age

Key tools include

- SARC-F Questionnaire
- Grip Strength Test
- Chair Stand Test
- Gait Speed Test
- Balance Test
- DEXA Lean Mass Index
- Protein Intake Assessment
- Functional Movement Screen
- Fall Risk Assessment

1. REVIEWING BODY COMPOSITION & MUSCLE REPORT

2. DEXA SCAN – LEAN MASS ASSESSMENT

3. GRIP STRENGTH TEST

4. BALANCE & FUNCTIONAL ASSESSMENT

5. CHAIR STAND & GAIT SPEED TEST

6. NUTRITION & PROTEIN INTAKE

Muscle & Functional Age Dashboard

Lean Mass Index
(kg/m²)

Good
(> 1.0 m/s)

Functional Age
(vs. Chronological Age)

Better than average

Risk Level: ● Low Risk ● Moderate Risk ● High Risk

Assessment Date: May 20, 2024

This module makes longevity visible and practical because clients can feel the improvement in strength, balance, mobility, and confidence.

TRI VANANDA

M6: Cardiometabolic & Vascular Risk

Why it matters

Cardiovascular disease remains one of the most important preventable risks in longevity medicine.

Blood pressure, dyslipidemia, vascular aging, inflammation, family history, smoking, low fitness, arterial stiffness, plaque burden, and metabolic dysfunction all interact over time.

The Cardiometabolic & Vascular Risk helps identify:

- cardiovascular disease risk
- hypertension risk
- dyslipidemia risk
- vascular aging
- plaque burden
- inherited risk
- kidney-metabolic-cardiovascular connection
- fitness-related cardiovascular risk

Key tools include

- ASCVD Risk Calculator
- PREVENT Risk Calculator
- Blood Pressure Risk Classification
- Family History Risk Review
- Smoking / Alcohol Assessment
- Exercise Capacity Assessment
- Arterial Stiffness Score
- Coronary Calcium Score Review
- Carotid Plaque Assessment
- EKG
- EECF

1. REVIEWING CARDIOMETABOLIC & VASCULAR RISK REPORT

2. EKG / ECG ASSESSMENT

3. EECF THERAPY SESSION

4. HEART-HEALTHY ACTIVITY

5. DIGITAL CARDIOVASCULAR DASHBOARD

This module is essential because it transforms cardiovascular prevention from a single cholesterol number into a full vascular risk map.

Assessment Date: May 20, 2024

TRI VANANDA

IV Nutrition Service Line

Physician-Guided Nutrient Infusion Program

IV Nutrition is not just a vitamin drip. It is a targeted nutrient infusion program designed according to biomarkers, lifestyle patterns, symptoms, and individual health goals to support recovery, immunity, metabolic health, liver detox, brain performance, and healthy aging.

TRI VANANDA

TRI VANANDA AI DIGITAL TWIN LONGEVITY PROGRAM™

Personalized today. Healthier tomorrow. Longer together.

1 AI HEALTH SIMULATION

จำลองผลลัพธ์จากการปรับไลฟ์สไตล์ 90 วัน

2 PERSONALIZED LONGEVITY PLAN

แผนอายุยืนเฉพาะบุคคล

ออกแบบโดยทีมแพทย์และผู้เชี่ยวชาญ เพื่อผลลัพธ์ที่ดีที่สุดสำหรับคุณ

3 PREDICTIVE RISK DASHBOARD

ประเมินความเสี่ยงล่วงหน้า

เบาหวานชนิดที่ 2	ปานกลาง
ไขมันพอกตับ	สูง
ภาวะหมดไฟ (Burnout)	ปานกลาง
สมองเสื่อม	ต่ำ
มวลกล้ามเนื้อน้อย	ปานกลาง
โรคหัวใจและหลอดเลือด	ปานกลาง

4 WELLNESS PROGRESS TRACKING

ติดตามผลลัพธ์แบบเรียลไทม์

Visceral Fat	-18%	↓
HRV	+24%	↑
Sleep Score	82 / 100	↑
น้ำตาลในเลือด (Avg.)	112 mg/dL	↓
Inflammation (hs-CRP)	1.2 mg/L	↓
Muscle Mass	+1.6 kg	↑

5 AI WELLNESS COACH

คำแนะนำรายวันอัจฉริยะ

- 07:30 เมื่อตื่นคุณนอนน้อย
แนะนำ: ลดความหนักของการออกกำลังกายวันนี้
- 12:45 น้ำตาลหลังอาหารสูงกว่าปกติ
แนะนำ: เลือกอาหารที่มีไฟเบอร์สูงในมื้อต่อไป
- 16:30 HRV ต่ำกว่าปกติ
แนะนำ: ทำ Breathing Exercise 10 นาที
- 20:00 น้ำหนักขึ้น 1 สัปดาห์
แนะนำ: ปรับแผนอาหารและเพิ่มการเดิน

AI Digital Twin: Practical Difference in Service Model

มีกับไม่มี Digital Twin — ต่างกันอย่างไรในทางปฏิบัติ

Without AI Digital Twin

1. แต่ละ visit เริ่มต้นเหมือน baseline ใหม่ — physician ต้องอ่านไฟล์เก่าเองทั้งหมด
2. ไม่มี trend line — รู้แค่ว่าวันนี้เป็นอะไร แต่ไม่เห็นว่าจะกำลังจะไปทางไหน
3. CONTINUUM subscription justify ได้ยาก — เพราะไม่มี value ที่ต่อเนื่องชัดเจน
4. ไม่สามารถฉายภาพ 5-year trajectory เพื่อ upsell ได้ — feature นี้ต้องตัดออกจาก pitch
5. Family Health Partnership retainer ยังขายได้ แต่ premium pricing justify ยากขึ้น
6. ยังดีกว่าคู่แข่งอยู่มาก — แต่ positioning ต้องเป็น “deep clinical expertise” มากกว่า “AI-powered”

Revenue Impact: ลดลงประมาณ 20–30%
ส่วนใหญ่มาจาก CONTINUUM + retainer pricing

FROM
CONVENTIONAL
CONTINUITY
—
TO
AI-ENABLED
CONTINUITY

With AI Digital Twin (Hybrid Approach)

1. ทุก visit มี context จากครั้งก่อน — physician เห็น trajectory ทันที ไม่เสียเวลา re-read ประวัติ
2. แสดง biomarker delta ให้ guest เห็นผลที่เปลี่ยนแปลงชัดเจน — สร้าง trust ที่จับต้องได้
3. CONTINUUM subscription มีเหตุผลแข็งแรง — AI twin update รายไตรมาส = recurring value
4. มี 5-year risk trajectory modeling — เป็น differentiator ที่คู่แข่งในไทยยังไม่มีในปี 2026
5. มี guest-facing dashboard ระหว่าง visit — เป็น brand touchpoint ต่อเนื่อง ไม่ใช่แค่ตอนมา
6. Herbal subscription ปรับ formula ตาม biomarker update ได้ — premium TTM

Revenue Impact: +25–40% LTV
จาก retention + premium pricing + subscription

Digital Twin does not replace the physician — it amplifies continuity, trust, personalization, and lifetime value.

PATAMA EXPERIENCE & REVENUE PLATFORM

Eight integrated pillars of wellness, hospitality, and recurring revenue

P1 Longevity Clinic

Services: 6M Assessment, Lab, Imaging, IV Therapy, AI Digital Twin, Physiotherapy

Business note: Clinical anchor — every guest starts here; upsell to IV pack, AI Twin, and specialist referral

P2 TTM Spa & Herbal Healing

Services: Constitution mapping, therapeutic massage, herbal formula, TTM programmes

Business note: High-frequency recurring — the service guests return to most often; highest repeat purchase rate

P3 Brain & Mind Studio

Services: Neurofeedback, cognitive assessment, burnout recovery, children's brain health

Business note: Premium intensive — highest revenue per guest day; subscription model for long-stay

P4 Food as Prescription

Services: CGM monitoring, personalised meal plan, cooking class, farm dining, daily café

Business note: Daily F&B + workshop + retail — high frequency; links M1/M2/M5 with gut-brain axis

P5 Sport & Recovery Hub

Services: Gym access, personal training, group class, recovery suite, membership

Business note: Day pass + monthly membership + programme — recovery suite margin is high

P6 Farm & Nature

Services: Farm tour, harvest experience, nature camp, herb workshop, produce basket

Business note: Low cost, high experience — strong community and cultural value; high family engagement

P7 Family & Children

Services: Family longevity blueprint, children's camp, elder programme, multigenerational design

Business note: Highest LTV segment — families stay longer, return more, refer most; not launched in Year 1

P8 Branded Products

Services: Herbal supplement, skincare, tea, welcome box, e-commerce subscription

Business note: Low variable cost, high margin, globally scalable — 5% Year 1 to 15% Year 5 of total revenue

TTM Spa & Herbal Healing

Thai Traditional Medicine, therapeutic bodywork, and personalised herbal care

From constitution diagnosis to therapeutic treatment and take-home herbal subscription

ขั้นที่ 1 — การวินิจฉัย (Dhatu 4 Constitution)

TTM begins by reading the body through Dhatu 4 constitution mapping.

ธาตุ 4: ดิน น้ำ ลม ไฟ

Each guest has a different elemental pattern that shapes illness tendency, response to food, treatment, and herbal formula.

PATAMA does not ask:
“What massage would you like?”

PATAMA asks:
“What is your constitution?”

ขั้นที่ 2 — การบำบัด (Therapeutic Treatments)

Nuad Boran

Traditional therapeutic massage for nervous system, circulation, and muscle recovery — linked to M3 Burnout & M5 Sarcopenia.

Tok Sen

Northern Thai wooden hammer technique for fascia, nerve pain, and chronic inflammation.

Luk Pra Kob

Hot herbal compress to reduce inflammation, relax muscles, and support lymphatic drainage — linked to M2 & M5.

Herbal Steam

Herbal steam used before or after treatment to open pores and support detox pathways.

ขั้นที่ 3 — สมุนไพรเฉพาะบุคคล (Personalised Herbal Formula)

After constitution mapping, the TTM practitioner prescribes a personalised herbal formula—not a generic one-size-fits-all remedy.

Guests take home their herbal set as a monthly subscription.

Direct link to Pillar 8 Branded Products

M3 Burnout → Adaptogen Formula

กระชาย · ขมิ้น · โสมไทย

M1 Metabolic → Detox Blend

มะระขี้นก · ขิง · ตรีผลลา

M2 Liver → Bitter Formula

ชะพลู · ดอกคำฝอย · ใบบัวบก

Why it matters: TTM at PATAMA is not a generic spa. It is a clinically meaningful Thai wellness system that combines diagnosis, treatment, and personalised herbal continuity.

A restorative mind-body site that bridges clinical brain care and contemplative practice. Supports nervous system recovery, cognitive clarity, emotional regulation, and long-stay wellness engagement.

Where advanced brain science meets ancient wisdom for lasting clarity and well-being.

Mindfulness-Based Stress Reduction (MBSR) Course (คอร์สลดความเครียดด้วยสติ)

- เรียนรู้การอยู่กับปัจจุบันด้วยสติ
- ลดความเครียดและความวิตกกังวล
- พัฒนาความยืดหยุ่นทางอารมณ์
- เสริมสร้างสมาธิและความสงบภายใน

Vipassana Meditation Guided Session (การฝึกสมาธิวิปัสสนาแบบมีผู้แนะนำ)

- ฝึกสังเกตกายและจิตตามความเป็นจริง
- พัฒนาปัญญาและความเข้าใจในตนเอง
- ลดความยึดติดและอารมณ์ลบ
- เหมาะสำหรับผู้ที่ต้องการฝึกสมาธิเชิงลึก

Zen Meditation & Breath Counting Workshop (การฝึกสมาธิแบบเซนและการนับลมหายใจ)

- ฝึกนั่งสมาธิแบบเซนและการนับลมหายใจ
- เพิ่มสมาธิและความสงบของจิตใจ
- เรียบง่ายแต่ทรงพลังในการฝึกฝน
- เหมาะสำหรับทุกเพศทุกวัย

Transcendental Meditation (TM) Introduction (การแนะนำการทำสมาธิแบบหยั่งรู้)

- เรียนรู้เทคนิคการทำสมาธิ TM อย่างถูกต้อง
- ช่วยลดความเครียดและเพิ่มพลังชีวิต
- เสริมสร้างสุขภาพกายและจิตที่ดีขึ้น
- เป็นพื้นฐานของการพัฒนาตนเองอย่างยั่งยืน

Loving-Kindness (Metta) Meditation (การทำสมาธิแผ่เมตตาเพื่อบำบัดจิตใจ)

- ฝึกแผ่เมตตาให้ตนเองและผู้อื่น
- ลดความโกรธและเพิ่มความรักความเข้าใจ
- สร้างความสัมพันธ์ที่ดีและความสงบในใจ
- บำบัดจิตใจและเสริมสร้างพลังบวก

Walking Meditation Session (การเดินจงกรม/เดินสมาธิในพื้นที่เงียบสงบ)

- เดินอย่างมีสติในธรรมชาติ
- ผ่อนคลายจิตใจและลดความฟุ้งซ่าน
- เชื่อมโยงกับร่างกายและลมหายใจ
- เหมาะสำหรับทุกระดับของการฝึกสมาธิ

Tibetan Singing Bowls Sound Bath (การบำบัดด้วยคลื่นเสียงจากขันธิเบต)

- คลื่นเสียงจากขันธิเบตช่วยปรับสมดุลพลังงานในร่างกาย
- ลดความเครียด วิตกกังวล และภาวะซึมเศร้า
- กระตุ้นการไหลเวียนพลังงานและการทำงานของอวัยวะภายใน
- ส่งเสริมการนอนหลับลึกและการฟื้นฟูเซลล์

Crystal Quartz Bowl Harmonic Healing (การบำบัดด้วยขันคริสตัลปรับสมดุลจักระ)

- เสียงบริสุทธิ์จากคริสตัลควอตซ์ช่วยปรับสมดุลจักระทั้ง 7
- ล้างพิษพลังงานลบและเสริมสร้างพลังบวก
- เพิ่มความชัดเจนทางจิตใจและการเชื่อมโยงจิตวิญญาณ
- ส่งเสริมระบบภูมิคุ้มกันและการฟื้นฟูระดับเซลล์

Gong Bath Resonance Therapy (การบำบัดด้วยเสียงฆ้องใหญ่เพื่อจัดระเบียบโมเลกุลร่างกาย)

- คลื่นเสียงจากฆ้องช่วยจัดระเบียบโมเลกุลและเซลล์ในร่างกาย
- ปลดปล่อยความตึงเครียดลึกในระดับเซลล์
- เพิ่มความสมดุลของระบบประสาทและฮอร์โมน
- นำไปสู่ภาวะสมาธิลึกและความสงบภายใน

Somatic Release Breathwork (การหายใจเพื่อปลดปล่อยบาดแผลทางอารมณ์ที่สะสมในร่างกาย)

- เทคนิคการหายใจเชิงลึกเพื่อปลดปล่อยอารมณ์ที่กดทับ
- ลดอาการตึงเครียดสะสมในร่างกายและจิตใจ
- เพิ่มการตระหนักรู้และการเชื่อมโยงกับตัวเอง
- สนับสนุนการเยียวยาและการเปลี่ยนแปลงภายใน

Tuning Fork Therapy for Nervous System (การใช้ส้อมเสียงปรับสมดุลระบบประสาทเฉพาะจุด)

- ใช้ส้อมเสียงความถี่เฉพาะปรับสมดุลระบบประสาท
- ลดอาการปวดเรื้อรัง ไมเกรน และความวิตกกังวล
- ฟื้นฟูการทำงานของสมองและระบบฮอร์โมน
- ส่งเสริมการนอนหลับที่มีคุณภาพและพลังงานชีวิต

HERBAL MEDICINE FARM

9 FLAVORS FOR HOME CARE

“Where Nature Becomes Medicine”

From Forest to Formula, From Wisdom to Wellness

Our organic herbal farm cultivates the 9 Flavors of Traditional Thai Medicine, the foundation of balance and long-term well-being. Each herb is grown with care, harvested at the right time, and prepared to support your body, mind, and spirit — at home, every day.

THE 9 FLAVORS OF LIFE

1. SEED TO SOIL

Heirloom seeds and native species nurtured in living soil.

2. CULTIVATION

Grown with natural methods and seasonal harmony.

3. HARVEST

Harvested at peak potency with mindful timing.

4. PREPARATION

Carefully cleaned, sorted, and prepared using traditional techniques.

5. PROCESSING

Solar & shade drying, grinding, and blending with precision.

6. 9 FLAVORS BALANCE

Blending the 9 flavors for holistic balance.

7. QUALITY CHECK

Lab-tested for purity, potency, and safety.

8. FORMULATION

Crafted into formulas for specific health needs.

9. HOME CARE

Bringing the wisdom of nature into your daily life.

PRESCRIBED WELLNESS

Your personalized herbal care journey, delivered.

FARM HIGHLIGHTS

- Organic & regenerative cultivation
- Grown in harmony with nature
- Solar-dried & shade-dried processing
- Sustainable harvesting practices
- Supporting local biodiversity and soil health
- From seed to shelf traceability

HOME CARE COLLECTION

Personal wellness, made simple.

- Herbal teas & infusions
- Herbal powders & capsules
- Herbal oils & balms

PERSONALIZED HERBAL SOLUTIONS

AI + Traditional Thai Medicine Wisdom

Your unique formula, crafted just for you.
For balance. For prevention. For life.

HOME CARE. ROOTED IN NATURE. GUIDED BY WISDOM.

NATURE IS MEDICINE.
WISDOM IS THE GUIDE.
YOU ARE THE PRIORITY.

PATAMA EXPERIENCE & REVENUE PLATFORM

Eight integrated pillars of wellness, hospitality, and recurring revenue

P1 Longevity Clinic

Services: 6M Assessment, Lab, Imaging, IV Therapy, AI Digital Twin, Physiotherapy

Business note: Clinical anchor — every guest starts here; upsell to IV pack, AI Twin, and specialist referral

P2 TTM Spa & Herbal Healing

Services: Constitution mapping, therapeutic massage, herbal formula, TTM programmes

Business note: High-frequency recurring — the service guests return to most often; highest repeat purchase rate

P3 Brain & Mind Studio

Services: Neurofeedback, cognitive assessment, burnout recovery, children's brain health

Business note: Premium intensive — highest revenue per guest day; subscription model for long-stay

P4 Food as Prescription

Services: CGM monitoring, personalised meal plan, cooking class, farm dining, daily café

Business note: Daily F&B + workshop + retail — high frequency; links M1/M2/M5 with gut-brain axis

P5 Sport & Recovery Hub

Services: Gym access, personal training, group class, recovery suite, membership

Business note: Day pass + monthly membership + programme — recovery suite margin is high

P6 Farm & Nature

Services: Farm tour, harvest experience, nature camp, herb workshop, produce basket

Business note: Low cost, high experience — strong community and cultural value; high family engagement

P7 Family & Children

Services: Family longevity blueprint, children's camp, elder programme, multigenerational design

Business note: Highest LTV segment — families stay longer, return more, refer most; not launched in Year 1

P8 Branded Products

Services: Herbal supplement, skincare, tea, welcome box, e-commerce subscription

Business note: Low variable cost, high margin, globally scalable — 5% Year 1 to 15% Year 5 of total revenue

PATAMA Sport & Recovery

Gym, pool, courts, personal training, group class, recovery suite (ice bath, sauna, compression)

LIVE tier เป็น facility access, THRIVE เป็น training, TRANSFORM เป็น performance programme

LIVE

Facility Access

Access to gym, pool, courts,
and recovery spaces.

THRIVE

Training

Personal training, group classes,
guided movement, and structured coaching.

TRANSFORM

Performance Programme

Advanced performance optimisation,
recovery planning, functional assessment,
and long-stay progression.

Strength & Conditioning
Build strength, mobility,
and resilient foundations.

Aquatic & Endurance
Improve cardiovascular fitness
and movement efficiency.

Group Movement
Motivating classes that build
energy and community.

Recovery Suite
Ice bath, sauna, and compression
to accelerate recovery.

Why it matters: Movement and recovery are not separate services — they are the daily physical engine that turns access into habit, training into progress, and performance into longevity.

G FLOOR

HUMAN PERFORMANCE & RECOVERY CLUB

Move Better • Recover Faster • Live Longer

A complete ecosystem for performance, recovery, and mindful movement. Science-backed programs, world-class equipment, and resort-level environment in harmony with nature.

PATAMA

Farm & Nature Forest

Farm tour, shinrin-yoku, nature camp, herb workshop

forest เป็น living classroom ค่า capex ต่ำ แต่ community value สูงมาก ดึงดูดครอบครัวและเด็ก

1 Farm Tour

Seasonal farm learning that connects food, family, and wellbeing.

2 Shinrin-Yoku

Forest immersion that supports calm, recovery, and emotional balance.

3 Nature Camp

A living classroom for children to build resilience, curiosity, and joy.

4 Herb Workshop

Hands-on herbal discovery rooted in Thai wellness tradition.

Why it matters:

Forest is not only landscape — it is a low-capex, high-value community platform that creates family engagement, intergenerational learning, and long-stay emotional connection.

Low Capex
Minimal infrastructure,
natural advantage.

High Community Value
Builds local pride, participation,
and long-term loyalty.

Family Attraction
Multi-generational experiences
that keep families coming back.

Child Engagement
Educational, playful, and
nature-connected learning.

TVND SIGNATURE FACILITIES

“Where Nature Becomes Medicine”

1) WELLNESS FOREST EXPERIENCE

(Immersive Forest Medicine Ecosystem)

Concept:

ไม่ใช่สวนเดินเล่น แต่เป็น prescribed healing landscape

ผสานวิทยาการสุขภาพเข้ากับธรรมชาติอย่างมีระบบ
ออกแบบทุกเส้นทางและพื้นที่ตามหลัก Nature-as-Treatment Protocol
เพื่อฟื้นฟูร่างกาย จิตใจ และพลังชีวิตอย่างลึกซึ้ง

FOREST REFLEXOLOGY WALKING TRAIL

เส้นทางเดินเท้าเปล่าบนพื้นผิวธรรมชาติหลากหลายชนิด
กระตุ้นจุดเท้าและระบบไหลเวียนโลหิต

FOREST BATHING ZONE

พื้นที่อาบป่า (Shinrin-yoku) ที่ออกแบบมาเพื่อลดความเครียด
เพิ่มภูมิคุ้มกัน และฟื้นฟูระบบประสาทอย่างเป็นธรรมชาติ

MORNING CIRCADIAN PATH

เส้นทางต้อนรับแสงธรรมชาติ เพื่อรีเซ็ตนาฬิกาชีวิต
พร้อมจุดฝึกหายใจ เคลื่อนไหว และโยคะกลางแจ้ง

SILENT WATER MEDITATION TRAIL

เส้นทางเดินสมาธิริมทะเลสาบ พร้อมแท่นลอยน้ำ
และเสียงธรรมชาติ ช่วยให้เกิดความสงบลึกซึ้งในใจ

NATURE-AS-TREATMENT PROTOCOL

ทุกกิจกรรมและพื้นที่ออกแบบตามแนวทางการรักษาด้วยธรรมชาติ
(Evidence-Based Nature Therapy)

PERSONALIZED NATURE PRESCRIPTION

BIOMETRIC FEEDBACK INTEGRATION

REST & RECOVERY PAVILIONS

THERMAL & MINERAL THERAPY ZONES

WELLNESS FOREST EXPERIENCE

3,000 – 8,000 SQM+ | NATURE. RESTORE. RECONNECT.

An immersive wellness sanctuary in nature.
Designed to support physical health, mental clarity,
and emotional balance through restorative
experiences and mindful connection.

EXPERIENCE HIGHLIGHTS

NATURAL IMMERSION
Shaded by mature trees, the forest
promotes relaxation and lowers stress.

MINDFUL MOVEMENT
Thoughtfully designed pathways
encourage gentle movement and
body awareness.

CIRCADIAN ALIGNMENT
Experiences follow natural rhythms
of light, sound, and energy
throughout the day.

QUIET & RESTORATIVE
Spaces for stillness, reflection,
and deep restoration.

FAMILY & COMMUNITY FRIENDLY
Spaces for all ages to connect,
learn, and grow together.

KEY PLAN

- 1 Forest Bathing Trails
- 2 Reflexology Trail
- 3 Circadian Pathway
- 4 Meditation Decks
- 5 Silent Water Platforms

1 FOREST BATHING TRAILS

Winding trails through lush forest encourage
mindful walking, deep breathing, and sensory
immersion to reduce stress and boost immunity.

2 REFLEXOLOGY TRAIL

Naturally textured footpaths stimulate pressure
points, improve circulation, and awaken the body's
healing systems.

3 CIRCADIAN PATHWAY

A pathway that aligns with the sun's journey —
from energizing morning light to calming
evening hues for better sleep and well-being.

4 MEDITATION DECKS

Quiet elevated decks for meditation, breathwork,
and contemplation surrounded by nature's
sounds and beauty.

5 SILENT WATER PLATFORMS

Floating or lakeside platforms invite moments
of silence and reflection, deepening connection
with water and self.

TRI VANANDA

Farm-to-Family Healing Program

โปรแกรมการเยียวยาจากฟาร์มสู่ครอบครัว

Let nature teach the next generation

Using the farm as a living classroom. Nature becomes the teacher, and the farm becomes the place where children and families learn health through direct experience — not through lectures or screens. This is the service that makes the environment itself a healing force.

Services & Activities

Children grow their own vegetables

Family harvest and cook together

Seasonal eating and food cycles learning

Composting and zero-waste practice

Herbal garden for sleep, digestion, immunity

Grandparent-child planting ritual

Mindful harvesting experience

Thai herb identification walk

Context / Notes

environment กลายเป็น teacher
The environment becomes the teacher.

เด็กและครอบครัวเข้าใจ health ผ่านประสบการณ์จริง ไม่ใช่ lecture
Children and families understand health through direct experience, not lectures.

Outcome:

Health is learned through nature, family practice, and shared experience across generations.

Paws & Play Treehouse Café

*Where children learn kindness, dogs
learn confidence, and families grow together.*

Core Offer

2-hour indoor-outdoor
dog learning café experience

Primary Revenue

Entrance fee + Café spend +
Dog activity program

Family Learning Café + Dog Socialization School + Dog Parent Community

Paws & Play Treehouse Café

Zone A — Indoor Treehouse Café ~120 sqm

The emotional heart of the venue.
A multi-level indoor treehouse play structure surrounded by a puppy play zone with gentle, small-breed dogs. Designed for children under 9 and families with toddlers.

- ✓ Multi-level treehouse structure with slide and climbing net
- ✓ Puppy play zone (small breeds, puppies under 6 months)
- ✓ Dog empathy story corner — structured reading with gentle dogs
- ✓ Parent observation café seating with full sightlines
- ✓ Birthday party space (private hire 2 hrs)
- ✓ Dog-safe flooring, rounded edges, no sharp surfaces

- A1 Treehouse Play
- A2 Puppy Play Zone
- A3 Story Corner
- A4 Parent Café Seating
- A5 Birthday Party Corner
- A6 Hygiene / Storage

Paws & Play Treehouse Café

Zone B — Puppy & Small Dog Café ~80 sqm

An intimate indoor zone dedicated to small dog breeds and puppies. Ideal for new puppy owners seeking socialization in a safe, guided environment.

- ✓ Puppy socialization class (structured, 45–60 min sessions)
- ✓ Small breed club events (Pomeranian, Yorkshire Terrier, Shih Tzu)
- ✓ Dog birthday celebration packages
- ✓ Professional dog photography corner
- ✓ Puppy owner education wall
- ✓ Dog snack bar (human-grade dog treats)

- B1 Puppy Socialization
- B2 Small Breed Club Lounge
- B3 Dog Photography Corner
- B4 Puppy Owner Education Wall
- B5 Dog Snack Bar
- B6 Café Seating

Paws & Play Treehouse Café

Zone C — Outdoor Dog Community Garden ~200 sqm

The outdoor heart of the venue. A shaded garden designed for medium and large breed dogs, supervised dog walking, agility experiences, and breed community events.

- ✓ Large breed play area (Golden, German Shepherd, Labrador)
- ✓ Supervised agility course (jumps, tunnels, weave poles)
- ✓ Dog walking training track (heel, recall, leash etiquette)
- ✓ Breed community garden seating — weekend club events
- ✓ Teen Dog Handler Zone — supervised large dog experience
- ✓ Shaded observation deck for parents

- C1 Large Breed Play Area
- C2 Agility Course
- C3 Walking Training Track
- C4 Breed Community Garden Seating
- C5 Teen Dog Handler Zone
- C6 Shaded Observation Deck

Agility Experience

Breed Club Gatherings

Teen Handler Training

Paws & Play Treehouse Café

Zone D — Brunch & Lunch Café ~100 sqm

A full brunch and lunch café with healthy menu options for adults, children, and dogs. Designed so parents and guests can dine while observing all zones.

- ✓ Full brunch menu (eggs, avocado, smoothie bowls, healthy sets)
- ✓ Kids menu (dog-themed, nutritious)
- ✓ Dog-friendly menu (pup cups, dog-safe treats)
- ✓ Coffee bar, cold brew, fresh juice, herbal drinks
- ✓ Weekend brunch sets with garden view
- ✓ Private brunch booking for breed club or birthday events

- D1 Brunch Dining Terrace
- D2 Coffee & Beverage Bar
- D3 Dog-Friendly Treat Counter
- D4 Kids Menu Corner
- D5 Private Event / Breed Club Table
- D6 Garden-View Observation Seating
